

## Ablation Procedures 2020/21: Centre Compliance with National Guidance

Total number of reported catheter ablations are given for each centre. BHRS recommendations (2016) are a minimum total annual volume of 100 ablations, and 50 AF ablations if these are undertaken.

Figures are colour coded red for <90%), amber for 90-110%, and green for ≥110% of the above recommendations. Total complex ablations (mostly AF but some other targets including ventricular arrhythmias) are colour coded as for AF ablations.

Childrens' hospitals also submit to the National Congenital Heart Disease Audit so figures here may be incomplete. As BHRS and NICE guidance is for adults, these centres have not been "red-amber-green" rated.

In accordance with ONS guidance, exact data have been suppressed where case numbers are less than 3, to ensure anonymity of the patient data included in the reporting.

Hospital	Hosp code	Region	Category	Simple ablation	AF ablation	Total complex ablations	Total ablations
